We are very pleased to introduce you to some of the quality huacaya alpacas of Hickory Wind Farm-Alpacas & Fiber. Our ever changing herd of fiber males provide outstanding fleece for our HWF yarn, roving, rug yarn, insoles, and socks.. Numerous fleeces have been sold directly to hand spinners and felters.

Our fiber males have been neutered, are trained to lead, and in good health. Most are from award winning parents.

And now, after 14 years , it is time to retire from the alpaca 'lifestyle'! It is a hard decision and even more difficult to part with animals that we have raised. Good homes are so important! Interested? Schedule your informative; no-pressure farm visit soon.

#### **YO-YO**

**DOB: 7/21/2012**

Still, Yo-Yo's fleece has been put to good use in HWF yarn & roving

**Yo-Yo sells for \$350**

#### **COCO**

**DOB: 7/31/2012**

Coco has championship breeding but unfortunately did not meet his owners herdsire requirements.

His medium brown fleece is dense with good crimp, staple length and uniform

color.

**Coco sells for \$400**

**WASA DOB 6/10/14** is a lovely medium fawn in color. Good crimp, staple length and uniformity of color. His 2016 AFD was 21 microns. He is a beauty and his fleece has often sold as is!

**RIPLEY DOB 9/19/2014** is the sweetheart of the bunch! He looks white but is actually a very light beige – often times difficult to tell. Very very nice fleece with an AFD of 20 microns.

**LOGAN DOB 6/2/2014** is a beautiful red-brown color with excellent fiber characteristics. Both of his 2015 & 2016 fleeces were purchased 'as is' by hand spinners. His 2015 cria fleece had an AFD of 15.9 microns.

**These 3 fiber males sell for \$500 each. Two younger white fiber males are also available @ \$500 each.**
